Emergency Health Check for Local Government 2017

February 1st 2017, 5:16 pm MST

Health Check Summary Report

HEALTH CHECK SUMMARY REPORT

This Summary Report is an analysis of your responses to the questions in the Emergency Management Health Check.

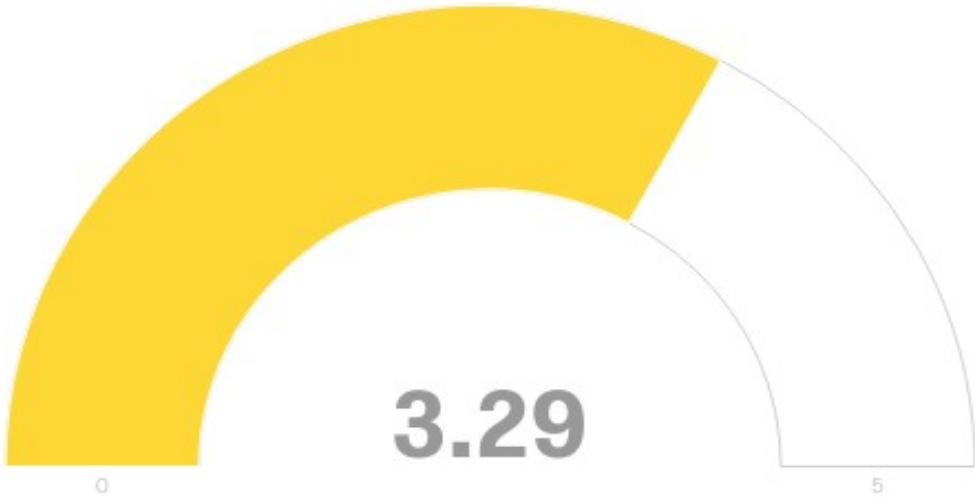

This report provides indicators of local government emergency and disaster readiness in order for your council to prepare action plans and inform executive decision making with regards to planning, resources and funding.

Please refer to the Health Check Tool Kit on www.emhealthcheck.com.au to understand what this means for your council, and how you can use these indicators to improve readiness outcomes.

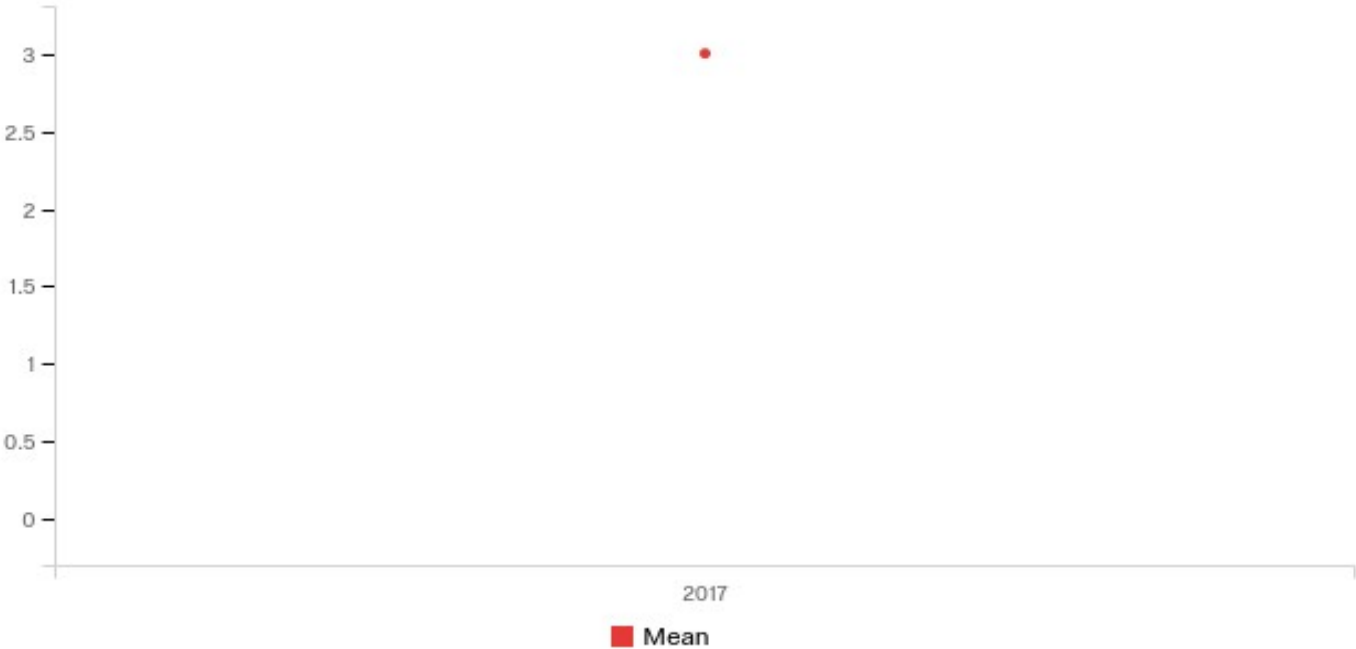

You can scroll down this report in your web browser, or alternatively export the report to PDF by clicking the link in the top right hand corner of this page.
